We need to hold on this until we work out our communication plan..i.e. with the CAG.

Subject: San Jacinto Proposed Plan

PDP

Donn,

Let's think about asking the Galveston Bay Foundation (TAG) to put the new Proposed Plan rollout date for San Jacinto on their public web site.

The text could look something like:

Currently, the EPA is conducting a technical review of remediation alternatives for the San Jacinto Waste Pits Superfund Site. The EPA's expectation was to consult with the EPA's National Remedy Review Board in July 2014; however, it has been determined that additional information is needed prior to the EPA recommendation of an alternative. Once this process is complete, the EPA will announce the proposed alternative in a Proposed Plan that will be available for public comment. The Proposed Plan should be available for public comment during the summer of 2015.

Any comments? We should also send this to the other stakeholders (TCEQ, Harris County, POHA, Trustees, etc.).

Thanks,

Gary Miller
